Magical Nativity Scene World

In Upper Austria, nativity scenes have been built for more than 400 years. Garsten and Steyr, the Ennstal and Steyrtal Valleys can justly be described as a "nativity scene country". In Rosina Gruber's nativity scene museum about 300 nativity scenes are on display. She uses all kinds of forms as houses. Some nativity scenes are peopled by several hundred small "Loahmandln" fired clay figurines.
